HoD, SCSA, Coimbatore

Online Coordinator
C. Rupeshwar
Asst. Professor, SCSA, Coimbatore

Last date of Registration: 16.04.2021

Architecture has always been imagined as the "mother of all art forms" and most of the times, the faculty and the students tend to get carried away by this saying and fail to delve deeper into the elemental and functional crux of architecture and design. This includes but not limited to public infrastructure and investments, architectural criticism, project controls, universal design parameters, collaborative design, big data and its impact on Smart Cities etc.

The intent of this programme "[Re]Imagining Architecture" is to ensure the faculty members of various schools of architecture across India gets these parameters explored in an effective and efficient way through virtual workshops, lectures, presentations and exercises during the proposed technical sessions and start "[Re]Imagining" the way in which the professional course of architecture can be taught and thought.

To summarize, the programme will "uncover skills and fill knowledge gaps" among the participating faculty members.
